HOME EQUITY LINE OF CREDIT
3.25% VARIABLE RATE**

Put your equity to work with a HELOC--Pay college tuition, home improvements and repairs, consolidate bills, and more....

If you are a typical homeowner and have owned your home for several years, your property has probably earned a profit for you by increasing in value because of inflation. Further, your regular monthly mortgage payments reduce the amount you owe. For both reasons -inflation and amortization- your equity normally increases.

This home equity can be used as collateral to secure a loan and line of credit for any worthwhile purpose. This loan does not change or alter your first mortgage in any way-it is an entirely separate loan. There may be tax benefits as well. Call for more details.

Rates are in effect as of this publication and are subject to change without notice.
